SMILES, THEN SHOOTS.

Calmly Walking up to the Official.

girl who attracted the attention of

everybody in the room by her remarkable beauty, shook hands with a smile and made the usual complimentary remarks.

Suddenly dropping not more than two yards from her intended victim, she pulled an automatic pistol from the folds of her dress and opened fire.

Before she could be seized she had sent seven bullets into the general's body. He fell forward on his face, virtually lifeless, for he died within a few minutes after arriving at the hospital, without having spoken a word.

SELECTED ASSASSIN.

The girl-assassin made no attempt to escape, but coolly surrendered and handed her empty revolver to the de-

fenders.

SAVED BY SHIELD.

An attempt was made yesterday to assassinate

Makhmud Bekoff, vice-governor of the political prison of Viborg.

Several shots were fired at Bekoff, but they struck a portfolio con-

taining a steel plate which he used as a shield.

An infernal machine was exploded on

the railroad track today in an at-

tempt to blow up a train bound for Se-

attle.

M. Khvost, an ex-social revolutionist member of the last Russian Parliament for whom the police have been searching since the dissolution of that body, was arrested at Riga today, charged with being the leader of a robber band.

STATEHOOD.

NO GLAD HAND FOR OKLAHOMA

PRESIDENT TO SIGN PROCLAMA- TION AS MATTER OF DUTY.

Chief Executive So Informs Rep-
resentatives from Prospective New
State When He Tells Them That He
Will Attach His Signature
Saturday, November 16.

BY DIRECT WIRE TO THE TIMES
WASHINGTON, Oct. 28.—[Exclusive
Dispatch.] Oklahoma will become a
State Saturday, November 16.

President Roosevelt fixed the date to-
day when the State Constitution was
presented to him by Gov. Frantz and
Justice Clayton.

The appointments will have been an-
nounced before the proclamation is signed, so that the machinery of
Statehood may begin punctually.

It is noted as worthy of special com-
ment that every soldier participating
wore out a pair of shoes and developed
such an enormous appetite that regu-
lar army rations proved insufficient.

The commissary was called on to
grind the moment "T. Roosevelt" is
written at the bottom of the parch-
ment of proclamation.

No extended ceremonial attended the
presentation of the much-disputed
Constitution. When the President ap-
peared at 11 o'clock in the Cabinet
room, the chamber was filled with
Oklahomans and those concerned in
the disposition of the Constitution. As
the President entered the chamber he
recognized Gov. Frantz, who informed
him he had come to present the Com-
mission to the people of the proposed
State. The President ad-
dressed his remarks directly to the
Governor. His first sentence was: "My
expectation is not, however, mean by that,
that I endorse many of the provisions,
I simply consider it my duty under
the enabling act."

However, he did not wish to be mis-
understood on this point, and added:

"I wish you to understand, however,
that the overwhelming chances are
that I will issue the proclamation."

A learned legal discussion followed
between the lawyers as to whether the
two days fixed in the enabling act
for the President to issue his procla-
mation means twenty days including
the day the Constitution was present-
ed. The learned judges held that it
did not.

"That means three weeks from to-
day, or Monday, November 16," said
the President, consulting the calendar.

But then, as if to make assurance
doubly sure, he said: "I will issue the
proclamation Saturday, November 16."

CHOLERA ON STEAMER.

HONGKONG, Oct. 28.—[Exclusive
Dispatch.] The British steamer Hong
Bee, from Singapore, has been quar-
antined at this port on account of
having cholera aboard.

During the voyage thirty-nine deaths
from the disease occurred.

It was generally recommended by all
officers that exercises be held either
earlier or later in the year to insure a
better attendance.

Czar's Director of Prisons Assassinated by "Executioners of Northern Flying Section of Social Revolutionists"—Destruction of Secret Police Aim of Conspiracy—Woman's Corsage Filled With Explosive.

BY DIRECT WIRE TO THE TIMES.

S. T. PETERSBURG, Oct. 28.—[Exclusive Dispatch.] Mile. Rigozinskova, a beautiful young woman of Perm Province and daughter of a teacher in the Imperial Conservatory of Music, today shot and killed Gen. Maximoffsky, director of the Czar's prisons, thereby carrying out the vengeance of the terrorists upon an official who had become detested for his cruel treatment of political prisoners.

When Mile. Rigozinskova was taken to the Police Station she attempted to free her bound hands, and reached toward her breast.

EXPLOSIVE IN CORSAge.—It was found that she carried inside her corsage a case containing thirteen pounds of high explosive, a charge powerful enough to blow the entire building and its occupants to pieces.

Mile. Rigozinskova's portrait is in that part of the police gallery marked "dangerous suspects;" nevertheless, she remained for three hours in Maximoffsky's reception-room unrecognized. She pretended that her mission there was to secure a better diet for her brother, who was sick in prison.

GEN. MAXIMOFFSKY.—It was found that he was sick in prison.

MRS. ROMADKE RAVES IN CELL

Wife of Milwaukee Millionaire Becomes Delirious.

She Calls for Negress Lowest Type.

Characterizes Husband "White Trash."

BY DIRECT WIRE TO THE TIMES

CHICAGO, Oct. 28.—[Exclusive Dispatch.] The most recent financial report in the world forms an impregnable barrier against any threatening wave of financial disaster in this country. The boundless resources of the West, pulsating through the railroad arteries, are the surest possible guarantee against troubles.

This is the first time that the San Francisco Clearinghouse has felt it necessary to pursue such a course, although it has been taken several times heretofore by banks in New York, Chicago and other important cities.

"Local conditions are sound and satisfactory," says the report.

"Suddenly, however, difficulties arise in the East, the banks there finding it necessary to combine their funds to protect the credit structure. Demands for loans are at the prosperous West, which must similarly protect its own community."

"It is hoped these conditions will not long be continued. Meanwhile, people should strive to make the funds in a manner as nearly normal as possible, as this will tend to hasten the resumption of the usual order of things."

BY DIRECT WIRE TO THE TIMES

NEW YORK, Oct. 28.—[Exclusive Dispatch.] Raymond Hitchcock, the comedian playing in "A Yankee Tourist," at the Astor Theater, was arrested today on complaint of Agent Pisarra of the Children's Society, charged with causing the ruin of Helen Von Hagen, a fifteen-year-old girl,

GRAVE CHARGE.
HITCHCOCK IS ARRESTED.

Actor Accused of Ruining Young Girl.

Several Children to Appear Against Him.

District Attorney's Office Makes Inquiry.

(BY DIRECT WIRE TO THE TIMES)

NEW YORK, Oct. 28.—[Exclusive Dispatch.] Raymond Hitchcock, the comedian playing in "A Yankee Tourist," at the Astor Theater, was arrested today on complaint of Agent Pisarra of the Children's Society, charged with causing the ruin of Helen Von Hagen, a fifteen-year-old girl,

Raymond Hitchcock, well-known comedian now filling an engagement in New York, who was arrested yesterday on criminal charges.

Residing with respectable parents. Hitchcock was taken to court and there arraigned before Magistrate Walsh. In arguing the question of bail, Assistant Dist.-Atty. Garven told the court that there were several girl complainants against Hitchcock other than Helen Von Hagen, and that all of them would be sent before the grand jury to testify. Three of his alleged victims, ranging in age from 12 to 15 years, were in the building at the time.

The strongest corroboration of Miss Von Hagen's story, however, was furnished by himself, when he appeared as complainant on Thursday last in the West Side police court against Herman Voeks, whom he charged with blackmail.

Hitchcock was subjected to a severe cross-examination by George Simpson, attorney for Herman Voeks, and, while denying that he had ever wronged any of the girl accusers, admitted he had taken Elsie Voeks and Helen Von Hagen in his auto to his country place at Great Neck, L. I., at a time when Mrs. Hitchcock was absent from home, and that he had then taken them to his rooms in the "house with the stained glass panels" in this city.

Hitchcock was released on \$500 bail.

Hitchcock was discharged by his first wife on April 9, 1904. It was alleged that he committed acts of infidelity in May, 1903, and at various other times with two young women mentioned in the complaint.

The actor was married May 5, 1904, to the Planters' Hotel, St. Louis, to Flora Zabelle, the actress who is now playing with him.

SENSATION RECALLED.

Rev. J. R. Keller, Who Was Shot by Member of His Church, Is Sent to Panama.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, Oct. 28.—Announcement was made today that Rev. J. R. Keller has been appointed to the important post of organist of the Episcopal church in the Isthmus of Panama.

Rev. Mr. Keller was rector of Trinity Chapel up to June last, when he resigned. Six years ago he figured in a sensational escapade and lost the sight of an eye, as the result of rendering his decision, Judge Langan said.

The shooting, which, as alleged at the time, was prompted by stories Mrs. Barker and her husband, Barker, was selected of the shooting and served a prison sentence, while investigations failed to verify the charge brought against the clergymen.

Friends of Rev. Mr. Keller see in his Panama appointment an expression by the church of its abiding faith in the clergyman.

TAFT HAS CLOSE CALL.

BAGUO, Oct. 28.—Secretary Taft and wife escaped injury last night from a runaway of mules, while they were in an automobile with Gens. Wood and Bissell. The chauffeur, who was going at great speed, fled after the narrow escape of the distinguished travelers.

This afternoon Secretary Taft attended a dance in his honor at which bizarre dances were presented. He also visited various points of interest and inspected the summer government buildings. He is said to have determined on the immediate development of Baguio on a large scale.

CONFIDENCE AT RENO.

(BY THE ASSOCIATED PRESS—A.M.)

RENO (Nev.) Oct. 28.—Every bank in Reno opened for business at 9 o'clock this morning. During the last forty-eight hours confidence had been restored to the people, and the belief

turned to the people, and the belief

was that the people, and the belief</

BY CHICAGO TRADERS.(BY DIRECT WIRE TO THE TIMES)
CHICAGO, Oct. 28.—[Exclusive Dispatch.] Confidence in the financial situation was expressed on the Board of Trade today that the great opening will be had half hour after the opening due to liquidation by speculators.

No cause for anxiety—brokers declared, would exist after the machinery which the banks have put into operation has been working for awhile.

All in all, it was felt, the world would be readily financed, as there is a general desire to increase exports of foodstuffs in order to bring gold to this country from abroad, so as to relieve the financial stringency.

MORSE COMBINATION
NOT TO REORGANIZE.(BY THE ASSOCIATED PRESS—P.M.)
NEW YORK, Oct. 28.—It was formally announced today that there would be no official reorganization of the steamship combination which was organized by Charles W. Morse and his New England associates.

The finances of various companies and their management will, however, be in the hands of the interests that formerly controlled the lines.

The offices of the consolidated Steamship Company in New York will be closed and President Austin will make his headquarters in Boston. The cotton crop is normal and prices will be good. The sugar yield also is better than last year.

The same conditions were reported by the traffic department of the Santa Fe; good crops, high prices and a brisk movement in all transportation relating to the movement of cars.

George H. Crosby, traffic manager for the Chicago, Burlington and Quincy Railroad, said that the exceptionally high prices farmers were receiving for their grain was the greatest guarantee of a continuation of prosperous conditions.

NO DANGER.

(BY THE ASSOCIATED PRESS—P.M.)
CHICAGO, Oct. 28.—Very little trouble was caused here today by the action of the Clearinghouse Association in the attempt to collect the amount of money to be paid out by the banks.

Business was almost entirely on a checking basis, and was apparently normal in all directions. The banks adopted a rule of not paying out currency in amounts of more than \$100, unless the funds were required for pay rolls. If depositors desired money in excess of \$100, they were asked to take a cashier's check for the amount. In all savings banks the rule requiring legal notice was enforced if the depositors failed to withdraw money in greater than \$100. The rule was elastic, however, and the banks imposed hardship upon no one. Money desired for payment of rent, insurance policies, or for necessary traveling was paid out promptly. In cases where notes were to be paid, the banks usually asked that the notes be presented to them for payment.

PROSPERITY.

(BY THE ASSOCIATED PRESS—P.M.)
CHICAGO, Oct. 28.—The national banks are handling the shortage of the value of the cotton crop in the South, the tremendous value of the corn and wheat crop in the West and West, the value of fruit and vegetables in California, and the booming conditions general throughout the West that causes a feeling of optimism in the business world in touch with the financial situation.

MARTIN HUGHITT'S VIEWS.

(BY THE ASSOCIATED PRESS—P.M.)
AKRON (O.), Oct. 28.—The Dollar Savings Bank has closed its doors, by order of the directors, until after the funeral of Fred Baron, its cashier, who shot himself while alone in his home yesterday.

An investigation of his accounts is going on, and a movement is also on foot to have the other banks of the city take over this institution.

According to a statement of the directors, a deficit of \$25,000 has been discovered. The sixty-day notice is enforced on all savings accounts in the banks of the city.

UNITED STATES BUYS
GOLD BARS IN LONDON.(BY THE ASSOCIATED PRESS—P.M.)
LONDON, Oct. 28.—The United States secured all the bar gold offered today in the market, totaling more than \$5,000,000. The price paid was \$15.50. This is 5½ cents higher than previous quotations, indicating the keenness of the competition. Both Paris and London bid against the United States.14 Years Under the Same Management and

WIDEAWAKE.

REPUBLICANS
IN EARNEST.ROOSEVELT-TAFT CLUB HOLDS
ENTHUSIASTIC MEETING.

Judge Curtis D. Wilbur and Senator McCarty the Principal Speakers at Huntington Park Rally. Points Made by Various Speakers Applauded—Good Attendance.

A meeting of the Roosevelt-Taft Club in Weber Hall, Huntington Park, last evening, drew a large attendance, and many of the points made by the speakers were applauded to the echo. Dr. Louis Weber presided.

Senator H. G. S. McCarty spoke by invitation on California's system of taxation. He said:

OUR TAXATION SYSTEM.
For the purpose of bettering the tax system of this State, to correct the evils existing in the same, the action of the Legislature of 1903 created a commission on revenue and taxation in California, consisting of four members of the Legislature, and the Governor of the State, who was made ex-officio chairman of the commission.

The act created the commission provided that the commission should be an expert on taxation, and that the commission should investigate the tax system of California, and report to the Legislature on the best method of revising the same.

The commission's report, which is necessary in view of the fact that the present system of assessing and collecting taxes is out of date, and is obsolete, not having been changed in any material respect since 1850, was admitted into the Union. That modern conditions and conditions had outgrown this old system of taxation, and that it was full of inequalities.

Under this system scarcely a dollar of tax could be collected in the State, or under discrimination one way or another.

In the short space of time allowed we shall attempt no technical discussion of our tax system, but will simply endeavor to point out some of the faults and inequalities of the present tax system, and second, to attempt to set the remedies that the commission has reported.

In general, the commission does not meet the demands made upon it, as it is not investigated, and has never been reviewed to keep pace with the modern system.

The inequalities which attach to our tax system destroy our industries and prohibit a successful development of our resources. They especially place an undue burden upon agriculture, the foundation of our wealth, the one industry which fully exploits the natural resources of the State.

For example, the average taxes paid by farmers in California are equivalent to an income to the State of \$200 per capita. This is a wide contrast with most other states; for instance, the tax paid by manufacturers, which amounts only to 2 per cent. of income, and persons engaged in agriculture with an income of \$200 per capita pay an annual in taxes, and the person engaged in manufacturing,

GRAVE CHARGE.
HITCHCOCK
IS ARRESTED.Actor Accused of Ruining
Young Girl.Several Children to Appear
Against Him.District Attorney's Office
Makes Inquiry.(BY DIRECT WIRE TO THE TIMES)
NEW YORK, Oct. 28.—[Exclusive Dispatch.] Raymond Hitchcock, the comedian playing in "A Yankee Tourist in King Arthur's Court," was arrested today on complaint of Agent Pizzaro, of the Children's Protective Society, charged with causing the ruin of Helen Von Hagen, a fifteen-year-old girl.Raymond Hitchcock,
well-known comedian now filling an

charges.residing with respectable parents.
Hitchcock was taken to court and there arraigned before Magistrate Walsh. In arguing the question of bail, Assistant Dist.-Atty. Garven told the court that there were several complaints against Hitchcock other than Helen Von Hagen, and that all of them would be sent before the grand jury to testify. Three of his alleged victims, ranging in age from 12 to 15 years, were in the building at the time.

The strongest corroboration of Miss Von Hagen's story, however, was furnished by Hitchcock himself, when he appeared as complainant on Thursday last in the West Side police court against Herman Voeks, whom he charged with blackmail.

Hitchcock was subjected to severe cross-examination by George Simpson, attorney for Herman Voeks, and, while denying that he had ever wronged any of his girl accusers, admitted he had taken Elsie Voeks and Helen Von Hagen in his room at his country place at Great Neck, L. I., at a time when Mrs. Hitchcock was absent from home; that he had once kept them over night at Great Neck, and that he had taken them to his room in the "house with the stained glass windows." In the end, Hitchcock was released on \$300 bail.

Hitchcock was divorced by his first wife on April 5, 1904. It was alleged that he committed an act of infidelity in May, 1906, and at various times with two young women mentioned in testimony as "Olive" and "Elsie." The actor was married May 5, 1905, in the Planters' Hotel, St. Louis, to Flora Zabelle, the actress who is now playing with him.

SENSATION RECALLED.

Rev. J. R. Keller, Who Was Shot
by Member of His Church, Is Sent
to Panama.(BY THE ASSOCIATED PRESS—A.M.)
NEW YORK, Oct. 28.—Announcement is made today that Rev. J. R. Keller has been appointed to the important position of organizing secretary to the Episcopal church in the Isthmus of Panama.

Rev. Mr. Keller was rector of Trinity Chapel up to June last, when he resigned. Six years ago he figured in a sensational escapade and the sight of an eye as the result of a bullet wound inflicted by Thomas Barker, the shooting, which, as alleged by the press, was committed by stories Mrs. Barker told her husband, who was convicted of the shooting and served a prison sentence, while investigations failed to verify the charge brought against the Barker.

Friends of Rev. Mr. Keller see in his Panama appointment an expression by the church of its abiding faith in the clergyman.

TAFT HAS CLOSE CALL.

BAGUO, Oct. 28.—Secretary Taft and wife escaped injury last night from a runaway of mules, while they were in an automobile with Gens. Wood and Bliss. The chauffeur, who was going at great speed, fled after the narrow escape of the distinguished travelers.

This afternoon Secretary Taft attended a feast given in his honor, at which Igorrote dances were presented. He also visited various points of interest and inspected the various government buildings. He is said to have determined on the immediate development of Baguio on a large scale.

FINANCIAL.

(Continued from First Page.)

ordinary circumstances, are preferred to money.

The banks will pay money on small checks as desired, and to provide funds for pay rolls and other legitimate uses. Small money will be demanded in unusual amounts, with the result that evidence is given that it is required in good faith and for other purposes than hoarding, to prevent which is the main purpose of this step.

This is the first time that the San Francisco Clearinghouse has felt it necessary to pursue such action, although it has been taken several times heretofore by banks in New York, Chicago and other important cities.

The local conditions are not entirely satisfactory. We are in the midst of marketing one of the most valuable crops the State ever has produced. All up and down the Coast we are in receipt of reports of the most favorable weather. With these conditions locally our financial affairs are on the best possible basis.

"Sundoubtedly, however, difficulties arise in the East, the banks there finding it necessary to compete with the railroads to protect the credit structure. Demands are diverted to the prosperous West, which must similarly protect its own currency.

"It is hoped these conditions will not long be continued. Meanwhile people should aim to handle their funds in a manner as nearly normal as possible, as this will tend to hasten the resumption of the usual order of things."

CHECKING BASIS.

DEPOSITORS GET
LITTLE MONEY.

CHECK SYSTEM WORKS TO PERFECTION IN CHICAGO.

Demands for Cash in Excess of Hundred Dollars Are Met by Requests to Take Cashier's Paper. Bank Officials State They Are Well Pleased Over Outlook.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Oct. 28.—Very little trouble was caused here today by the action of the Clearinghouse Association in the attempt to collect the amount of money to be paid out by the banks.

Business was almost entirely on a checking basis, and was apparently normal in all directions. The banks adopted a rule of not paying out currency in amounts of more than \$100, unless the funds were required for pay rolls.

If depositors desired money in excess of \$100, they were asked to take a cashier's check for the amount. In all savings banks the rule requiring legal notice was enforced if the depositors failed to withdraw money in greater than \$100. The rule was elastic, however, and the banks imposed hardship upon no one.

Money desired for payment of rent, insurance policies, or for necessary traveling was paid out promptly. In cases where notes were to be paid, the banks usually asked that the notes be presented to them for payment.

PROSPERITY.

(BY THE ASSOCIATED PRESS—P.M.)
CHICAGO, Oct. 28.—The national banks are handling the shortage of the value of the cotton crop in the South, the tremendous value of the corn and wheat crop in the West and West, the value of fruit and vegetables in California, and the booming conditions general throughout the West that causes a feeling of optimism in the business world in touch with the financial situation.

MARTIN HUGHITT'S VIEWS.

(BY THE ASSOCIATED PRESS—P.M.)
AKRON (O.), Oct. 28.—The Dollar Savings Bank has closed its doors, by order of the directors, until after the funeral of Fred Baron, its cashier, who shot himself while alone in his home yesterday.

An investigation of his accounts is going on, and a movement is also on foot to have the other banks of the city take over this institution.

According to a statement of the directors, a deficit of \$25,000 has been discovered. The sixty-day notice is enforced on all savings accounts in the banks of the city.

UNITED STATES BUYS
GOLD BARS IN LONDON.(BY THE ASSOCIATED PRESS—P.M.)
LONDON, Oct. 28.—The United States secured all the bar gold offered today in the market, totaling more than \$5,000,000. The price paid was \$15.50. This is 5½ cents higher than previous quotations, indicating the keenness of the competition. Both Paris and London bid against the United States.14 Years Under the Same Management and

ENTHUSIASTIC MEETING.

Judge Curtis D. Wilbur and Senator McCarty the Principal Speakers at Huntington Park Rally. Points Made by Various Speakers Applauded—Good Attendance.

A meeting of the Roosevelt-Taft Club in Weber Hall, Huntington Park, last evening, drew a large attendance, and many of the points made by the speakers were applauded to the echo. Dr. Louis Weber presided.

Senator H. G. S. McCarty spoke by invitation on California's system of taxation. He said:

OUR TAXATION SYSTEM.
For the purpose of bettering the tax system of this State, to correct the evils existing in the same, the action of the Legislature of 1903 created a commission on revenue and taxation in California, consisting of four members of the Legislature, and the Governor of the State, who was made ex-officio chairman of the commission.

The act created the commission provided that the commission should be an expert on taxation, and that the commission should investigate the tax system of California, and report to the Legislature on the best method of revising the same.

The commission's report, which is necessary in view of the fact that the present system of assessing and collecting taxes is out of date, and is obsolete, not having been changed in any material respect since 1850, was admitted into the Union. That modern conditions and conditions had outgrown this old system of taxation, and that it was full of inequalities.

Under this system scarcely a dollar of tax could be collected in the State, or under discrimination one way or another.

In the short space of time allowed we shall attempt no technical discussion of our tax system, but will simply endeavor to point out some of the faults and inequalities of the present tax system.

The inequalities which attach to our tax system destroy our industries and prohibit a successful development of our resources. They especially place an undue burden upon agriculture, the foundation of our wealth, the one industry which fully exploits the natural resources of the State.

For example, the average taxes paid by farmers in California are equivalent to an income to the State of \$200 per capita. This is a wide contrast with most other states; for instance, the tax paid by manufacturers, which amounts only to 2 per cent. of income, and persons engaged in agriculture with an income of \$200 per capita pay an annual in taxes, and the person engaged in manufacturing,

WOMAN "RAFFLES."

MRS. ROMADKE RAVES IN CELL.

Wife of Milwaukee Millionaire Becomes Delirious.

She Calls for Negress of Lowest Type.

Characterizes Husband as "White Trash."

MY DIRECT WIRE TO THE TIMES.

CHICAGO, Oct. 28.—[Exclusive Dispatch.] Raving in delirium, requiring constant vigilance on the part of the guards to prevent attempts at self-destruction. Mrs. Evelyn Romadke, wife of the Milwaukee millionaire drunkard, is battling in frenzy in a barrel cell on the first floor of the County jail today.

She is surrounded with her outbursts of rage and with her companions in misery. She pronounced them as "white trash" threatened them and actually attacked her in her furious hatred of her husband's race and color.

TILLS HUBBY "WHITE TRASH." Her husband was characterized like this as "white trash." She screamed at her babe had been blackened, and fought with her keepers when Rhoda was separated from her.

Mrs. Romadke's attack was apparently precipitated by words from her minister. He called to see her Sunday morning, and sent word to jail to find out whether she had run from her husband. She sent word that she had not.

Mrs. Romadke began to exhibit signs of excitement. She became so violent that Mrs. Mabel Nisbett, transferred her from the cell in the third floor of the women's quarters and locked her in a solitary cell in the first floor, where she would be under the matron's personal care.

RAVES OF HER TROUBLES. Mrs. Romadke broke into frequent fits of shrieking during the entire day and night, and kept the other women awake. She is in bed and unable to get up, although she ate her breakfast.

During her delirium Mrs. Romadke avowed of her troubles and made constant references to her name being associated with that of the negro, Alton Jones.

"My husband has deserted me," she cried; "deserted me for a lot of 'white trash.' My baby is blackened. What will I do?"

"Want him—Dinan," she cried repeatedly during the afternoon and evening. "Why don't he come to me?"

"Get out of here, all of you, you poor human prisoners," she said to the other women prisoners. "Don't you know here on Rhoda Rhoda is the only one that has been good to me?"

She awoke from her couch and threatened the other white prisoners and drove them away.

AUTO EXHIBIT MARVELOUS.

New York Show Has None but American Cars.

Six-Cylinder Machines Form Big Feature.

Two-Engine Carter Is One of the Freaks.

BY ROY B. WHEELER.

BY DIRECT WIRE TO THE TIMES.

NEW YORK, Oct. 28.—[Exclusive Dispatch] The Grand Central Palace automobile show is now in full swing and all the dozen exhibitors were duly placed in order today so that the throngs which crowded the building saw the show in its entirety after two days of exhibition. The general verdict is that in spite of the early date of the show, bad money conditions and other detrimental factors, the present showing of automobiles is a marvelous index of the solidity of the industry.

The Grand Central Palace show of this year is the first in America in which foreign cars have no part. The building is crowded from top to bottom with American built machines, and when it is remembered that these hundreds of cars are the product only of the makers of one of the manufacturers' associations, the vast extent of Motordom can be appreciated, as was foreseen some time ago. One of the features of the show is the six-cylinder car. Eighteen makers are showing cars of this type, and while many are powerful and expensive, one of the minor surprises of the show is the low cost and fine appearance of two or three six-cylinder runabouts. An unexpected and rare surprise, however, is the appearance of a half a dozen Buicks abouts. The high wheeled, low powered and low priced car of the Middle West is making an impression on its first home in New York. Little change in design is shown, and the manufacturers are proclaiming that the day of standardization is here.

The air-cooled car remains in status quo and the other fighting round of the technical and two-cycle engine has perhaps gained little. Neither have made such a change in the exhibition as to take rank as features of the show.

Perhaps the most encouraging feature of the show is that many well made, fine-looking and moderately priced cars. Next to the abundance of six-cylinder cars the great number of moderate-priced cars is the main outstanding point of the show. There are few freaks than usual.

The Carter two-engine car, which has completed a four-cylinder, thirty-horse power engine laying side by side under a broad bonnet. One engine is used for driving, running and the other is clutch'd up for climbing and hard work. An electric can be made to look like a six-cylinder gasoline touring car is another.

One of the amusing features of the show is that while J. D. Maxwell has uncovered a new four-cylinder touring car at an extremely low figure, his main rival, Henry Ford, is keeping quiet and is apparently doing nothing. The Ford space is nicely filled with committees and the year's models. Whatever Ford has in his sleeve, and it is rumored to be a new four-cylinder car, he refuses to say anything about it.

Many more enclosed bodies than formerly are to be seen in the matter of finish, are two minor points of the great show. The Berlet and the Rambler, both of which have severed their connection with the associations in having a show of their own. The Berlet is at the Waldorf-Astoria and opened its private affair Saturday night.

GOING SOME.

FAIL TO BEAT HANSHUE'S TIME

NO NEW MARK SET FOR THE SAN DIEGO RUN.

Latham and Lusby Have a Strenuous Ride Over Heavy Roads, but Arrive Fifteen Minutes Too Late to Accomplish What They Attempted—Will Try It Again.

Racing against time in a Thomas-Detroit auto, just out of the factory, Bert Latham and A. C. Lusby, of the Western Motor Car Company, drove the forty horse-power car from San Diego to Los Angeles yesterday. They failed to lower the record, but even the failure was a remarkable performance.

The Los Angeles-San Diego record is held by Mrs. Hanshue, of this city, who drove a Reo, twenty horse-power car, over the 130 miles of hill anddale in 6 hours and 45 minutes. Latham covered the distance yesterday in exactly six hours of running time, within fifteen minutes of the record.

Latham took the car from San Diego on Saturday in driving rain. The roads were slippery with slush but sent the big machine in safety. He went by the inland route. He found the road from here to Riverside in fair condition. The weather was bad, but the road was little better, and from Murrieta to Temecula the running was fine. The rest of the way was over an abominable road which the rains had made almost impassable.

I. P. Egan of the Thomas Company, an expert driver, accompanied Latham and Lusby to San Diego. The trio determined to race back to Los Angeles in an effort to lower Hanshue's time. They performed it. R. F. Finkett, who is also an automobile enthusiast, made the trip with them. They left San Diego at 8:15 o'clock yesterday morning and drove by way of the Coast road.

A mistake beyond Oceanaside practically lost for them the chance to lower the mark. They had beaten Hanshue's time by twenty minutes when Oceanaside was reached, and were given a wrong direction by a resident of the same town. The consequence they lost a valuable thirty minutes trying to find the right road.

Another delay came in fording the San Luis Rey River, this side of Oceanaside. The stream is swollen, the deep water is rocky, and the crossing is extremely difficult. About thirty miles from Los Angeles they were stopped on

AGAINST THE SALOON.
Dr. Chapman Delivers His Latest Address on Temperance Before the Ministerial Union.

At the meeting of the Ministerial Union yesterday, composed of the ministers of all denominations of the city, Dr. E. S. Chapman delivered another of his strong addresses on the liquor question. This address was first delivered at Norfolk, Va., last month, at the national conference of Anti-Saloon League superintendents, and was at once ordered printed for national distribution by the denominations "proprietor's message." The doctor has given it the plain title, "The Future Plans of the Liquor Men," for it deals largely with the question of high license, which he claims to be a means of the dealers themselves to better entrench themselves in the business by making it appear more valuable to the municipality.

BETTER THAN ANY SIDESHOW.

"POLLY PRY" CASE TO BE TRIED AT LONG BEACH.

Whole Truth About the Mysterious Midnight Arrest May Come Out Today—Defendant Says She's Victim of Petty Politics and Promises to Tell All About It.

The sensational preliminary examination of "Polly Pry," who is charged with trying to blackmail young society men will really take place at Long Beach. The show is billed for 10 o'clock this morning and it promises to be worth the price of admission. Deputy District Attorney C. C. McCormick will be present as a representative of the District Attorney's office, although the active prosecution will be conducted by John E. Daly of Long Beach. Polly (Mrs. Ethel Hartman) will be defended by Attorney David G. Taylor.

Polly will enter a red-hot defense of which the first intimation has been given out. She means to fight the charges of conduct against the Long Beach officials.

As a sample copy of the fuses she means to raise, Polly yesterday caused the arrest of J. C. Merrill, a sort of kingpin around the Long Beach Police Station. She accused him of battery in connection with the doings of the night of her arrest.

Mrs. Harrington's story is that this morning she was attacked by a man.

Neither of the boys did any hard work yesterday and will probably do nothing today but rest. It is said that Weeks has neglected nothing that will get him into first class shape, for it is the best Attell can do.

Both the boys are in fine condition, if reports from their camps can be believed, and both look fit. As they are naturally little fellows, the question of weight has not bothered them any and the fact that Weeks has a forfeit up that he will make 122 pounds, stripped at the ringside, shows that he can make it and be strong, or he certainly would not consent to go against Weeks' weight.

Durant, who thinks his present cannot last a lot of them, has thought the same when fighting Attell and he is generally the biggest and the best on in the ring when the final comes.

The betting runs from 10 to 4 to 2 to 10, that a great amount has been wagered, for the reason that this is Weeks' first appearance here and but few of the local sports have ever seen him in action. He has a very good record and if anyone can beat Attell he will do it.

Neither of the boys did any hard work yesterday and will probably do nothing today but rest. It is said that Weeks has neglected nothing that will get him into first class shape, for it is the best Attell can do.

The old local favorite, Charley Elton, will referee and will doubtless be warmly welcomed, for it has been months since he was seen as the third man in the ring.

Both the boys will furnish the debut for Weeks. It will also serve to introduce another new one in Kid Farmer, who has always been a tough fighting proposition in the East. He is well known to the public and has a large number of friends in sight for him.

The old local favorite, Charley Elton, will referee and will doubtless be warmly welcomed, for it has been months since he was seen as the third man in the ring.

Both the boys did any hard work yesterday and will probably do nothing today but rest. It is said that Weeks has neglected nothing that will get him into first class shape, for it is the best Attell can do.

The old local favorite, Charley Elton, will referee and will doubtless be warmly welcomed, for it has been months since he was seen as the third man in the ring.

Classified Liners.

Times Classified Rates: The rate for inserting "Wanted" ads in the Daily Times is 10 per word for each insertion; in the Sunday issue 1/40 per word, except in the classified columns where the rate is 10 per word. The minimum charge is 25¢; except under following classifications: the rate for which is 10¢ per line, minimum charge 30 cents: "Lost and Found," "Personals," "Special Notices," and "Baths and Massage."

"Liners" (classified) advertisements for Sunday insertion received over the counter or by telephone after 11 o'clock Saturday nights will be inserted under heading "Too Late to Classify."

Sunday real estate advertisements, to be classified properly, must be sent to the Times office before 10 o'clock Saturday nights. Rates, 1/4 cents per word.

The Sunday circulation of The Times exceeds 70,000 copies, and more "liners" are regularly printed in its columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephone advertisements.

SOCIETY MEETINGS

PROF. ATLMER HARDING, THE WELL-KNOWN teacher and lecturer, will return from retirement in the Santa Ynez Mountains, where he has been for the past year, to speak at the first of a series of constructive addresses on "The Twentieth Century." Admission 25¢. The public invited.

THE CITY IN BRIEF

Time for Rock-pile Talk.

NEWS AND BUSINESS.

New Pound District.

The District Attorney was instructed yesterday by the Board of Supervisors to prepare an ordinance creating a new pound district for South Hollywood. Dancing and Whist.

Los Angeles Temple, Pythian Sisters, will give a dance and whist party this evening in Broadbent Hall, to which they have extended a general invitation to all Pythians.

A Fresno Bankrupt.

Jacob Bros., merchants of Fresno, filed a petition in bankruptcy, yesterday, in the United States District Court. The debts are estimated at \$21,139 and assets \$384.

Admitted to Practice.

Frank A. McGraw, Joseph W. Coffey, Harry H. Henderson and Francis S. Montgomery were yesterday admitted to practice law in this State by the District Court of Appeals.

Griffith Avenue Improvements.

The Merceera Bridge and Construction Company yesterday was awarded the contract for building the culvert underneath Griffith avenue, adjoining the County Hospital grounds, at a cost of \$1070.

Mail Carrier in Trouble.

Mark E. Tant, a Long Beach letter carrier, who is accused of delaying the delivery of mail, was arraigned before Commissioner V. H. Dyke yesterday on complaint of Inspector J. H. C. Wilson of the Postal Department.

Alexander is Recovering.

Supervisor George Alexander was still unable to appear at yesterday's session of the county board, this having been the fourth day of his absence. But he reported yesterday that he much improved, and that yesterday he was able to be up and around his home.

More School Bonds Offered.

The Willowbrook school district has voted to issue bonds to the amount of \$5000 for the purpose of constructing a new school. The Board of Supervisors authorized the advertisement of the bonds for sale to the highest bidder.

Palmdale's Poundmaster.

At least the Board of Supervisors has found a man who is willing to stand for the position of poundmaster at Palmdale. The last incumbent resigned in deep disgust, but yesterday the board appointed to the position Matt Shotts, who is said to be the choice of the people of the pound district.

Espey Takes Appeal.

In behalf of the Southern Pacific Railroad, Attorney J. W. McKinley presented his appeal in the United States Circuit Court, yesterday, from a recent jury verdict in favor of L. Allard, \$100. The suit was to recover damages for the death of an employee of the road.

Stricken on the Street.

Stricken with heart failure as he was passing along Main street near Third yesterday afternoon, R. E. Brown, a carpenter, residing at No. 739 Ruth avenue, fell to the sidewalk and refused to be removed to the receiving Hospital. He died. Relatives identified the body about 7 o'clock last night at Brees Bros' mortuary.

Building Bridge Approach.

Supervisor Patterson yesterday informed members of the board that he would be able to secure enough money from the triangle along Pasadena avenue between 17th and 20th to build an approach to the bridge across the Arroyo Seco, between Garvanza and Lincoln Park. The wooden approach on the county side is to be shortened by the construction of a stone and earthen

Bonds for "Dead Ones."

Bonds were filed with the Board of Supervisors yesterday by Dr. W. J. Barlow, for the Los Angeles Medical College, Dr. J. W. McElroy, for the Ecclesiastical College of Medicine, and Dr. Charles W. Bryson, for the College of Physicians and Surgeons, to insure the proper handling of cadavers distributed to these schools for dissection by students. The bodies are furnished by the County Hospital and the County Farm.

But Little Foul Brood.

E. A. Fischer, county inspector of apiarists, filed his report for the month, and this shows that but little foul brood is to be found in the districts he has visited, and prompt measures have been taken to eradicate these swarms where it has obtained a foothold. The inspector examined 1615 swarms in the Verdugo, Pasadena, Castale, and found but forty-one swarms where there was foul brood. Some of these were ordered destroyed, while others were treated with the McEvoy process.

Franchise Hearing Postponed.

After several hearings, the Board of Supervisors yesterday again postponed for one week final action on the granting of a franchise for an electric road on Main street, from Hillside to the mouth of the Arroyo Seco. This is the section on which the Los Angeles-Pacific now holds a private right of way in the center of the street, while W. J. Heddle, who bid on a franchise, which would have to be granted along the narrow stripe either side of the private right of way, and which he had previously confiscated, entered and was awarded. It was also decided yesterday that there is a probability of the two interests effecting a compromise, so a week's postponement was sought.

Castaic Canon's Road Feud.

For years past there has been continuous trouble up and down the canyon, the location of the public roads desired. This has developed to such a point that it has caused neighborhood feuds of much bitterness, and in the meantime the travelers hate to make their passage over one of the narrow canyon highways in Los Angeles county. At last the Board of Supervisors has determined to adopt a definite policy as to this canyon road, and that is to fully adopt it. On Friday Supervisors Patterson, Eldridge and Manning will visit the canyon, and traverse the entire section under dispute. It is probable that they will find the highway to be located above the reach of the storm waters, and that an appropriation will be made for permanent road building there. At present the roadway is a mere collection of dirt, running right along the center of the

waterway, and it was declared yesterday that "even the survey has been washed away."

BREVITIES.

Home building is vigorously under way at Ramona Park, the beautiful subdivision on the Covina electric line. No spot in the famous San Gabriel Valley has a more brilliant future than Ramona Park. We have decided to extend our original offer of \$50 cash and \$5 monthly on lots, and are preparing to be a decided winner. Free tickets if you would like them. Althous Bros., No. 430, South Broadway.

Why pay others \$35 to \$5 for eyeglasses, when you can have them at your eyes with a pair of half a carat crystal lenses in a ten year, gold-filled frame for \$1.50? Thirty to 50 per cent saved on optician's prescriptions. Two opticians, State registered, in attendance. Satisfaction guaranteed. Consultation free. Clark's Optical Parlor, 351 S. Spring st., opposite Hellman Bldg.

A genuine Diamond Ring Free at each sale. The big auction sale now going on at Clark's, 351 S. Spring st.

Positively retiring from business. Diamonds, watches and jewelry now being sold at auction daily at 2:30 and 7:30 P.M. and 9:30 P.M. on Saturday.

Don't miss it. Coupons free for the diamond ring at each sale, and every one will fit any lady or gent.

The Brownberger Home School invites you to the annual reception, Wednesday evening, October 30, at College building, 863 West Seventh street. The reception this year takes the form of a old-fashioned games will be indulged in and a general good time is expected.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warehous, corner Los Angeles and Seventh streets, where can be seen the largest department of black and brass fireplace trimmings to be found in the United States.

Pretty pictures, popularly priced. Fine frames, fashionably finished. J. F. Kranz Art Co., 16, S. Spring st.

Furniture, remodeling, repairing, to order. D. Bonoff, furrier, 324 S. Bway.

Lewis Single Binder Clear—richest, most satisfying smoke on the market.

Dr. George B. Walrath has removed to 322-334 Security building.

Don't miss Harry & Frank st. at 427-441 S. Spring st.

Artificial eyes. Dolany's, 302 S. Spring. Dentist's office for rent, 1521 S. Hope.

Dr. R. F. Church, returned, 214 Grant. Dr. Schaefer, dentist, 310 Laughlin.

BIRTHS, DEATHS, MARRIAGES, DIVORCE.

Scott's
Emulsion

is an invaluable
remedy for
yourself and your
family.

It makes a thin
baby plump, a weak
child strong, a delicate
woman robust,
an ailing man hearty.

Scott's
Emulsion

builds up the system
and in that way pre-
vents disease.

All dosages: 50c. and \$1.00.

CRACK O' DOOM.

HOT ON TRAIL
OF LAND HOGS.

Government Ready to Crowd
the Prosecutions.

California Cases Included in
the Long List.

Activity Augurs Great Stir
Throughout West.

With more comprehensive evidence
of land, civil and criminal prosecutions
will begin soon in land fraud cases
throughout the West. Several actions
are promised in the Federal courts of
California. A report on alleged fraud-
ulent entries in the Imperial Valley
is submitted to M. C. Burch, Special As-
sistant United States Attorney-General,
who will file the actions. Whether
the criminal penalty can be im-
posed is not known. A number of
service men have been at work in all
parts of the country where there have
been rumors of illegal entries by 'dum-
pling' men.

A renewed effort is to be made by
the government to regain title to mil-
lions of acres of valuable land which
is asserted, have gone into private
ownership through fraudulent entries.

The government will now two or three
of available lands from entries made
long ago. Now, it is stated, the At-
torney-General has enough evidence at
hand to proceed with actions annulling
titles which have been made for
the time past.

It is announced that the government
stands to make extensive prosecutions.

Men and women who allowed their
names to be used on 'dummy' en-
tries and made false entries
will be included in the lists. This means that
thousands of suits will be started. The
suits and evidence were collected by
L. C. Wheeler, who cooperated with
John Atty.-Gen. Burch with force of
several agents.

GETTING AT THE 'INSIDE.'

These men were sent into the vari-
ous sections where the land was taken
up and are said to have obtained em-
ployment in the corporations that are
alleged to have perpetrated frauds. In
the case of the books of the
companies were gained and valuable
information was gathered.

The States in which the greatest
land frauds probably will be unearthed
are the Dakotas, Montana, Wyoming, Utah
and California. Through cities, roads
an effort will be made to force the
abandonment of thousands of acres in
Montana.

Frauds in coal lands in Utah, Wyoming
and Colorado are said to be even
more extensive than in timber lands.

High officials of the Utah Fuel Com-
pany and the Pleasant Valley Fuel
Company, which are controlled by the
Douglas and Colorado Fuel and Railroad
road, already have been indicted. The
suits will come up for trial at the
next term of the Federal court. Pre-
parations have been made to prosecute
more than 200 entrymen for making false
statements.

In Wyoming the officials of the coal
companies controlled by the Union
Pacific Railroad also have been in-
dicted. A number of suits will be
brought against the officials
as well as the company officials. The
same conditions exist in Colorado.

During the coal land fraud investi-
gation in the West, Wyoming evi-
dence was obtained against the Union
Pacific and Rio Grande Western rail-
roads by the Interstate Commerce
Commission for discriminating
against carriers against independent
companies. Bills were prepared
and filed against the railroads in the
Federal courts. These cases also will
be brought up for hearing in the near
future.

It is alleged by the government's
agents that the railroads secured vast
tracts in coal lands through discrimi-
nations. The railroads, too, had
the "pull" with the State governments,
which is alleged, was used against the
independent companies. Bills were pre-
pared and filed against the railroads in the
Federal courts. These cases also will
be brought up for hearing in the near
future.

There were five bidders for this piece
of work, and their figures ranged all
the way from \$17,000, the offer of the
H. W. Low Company, to \$7994, the bid
of the Engineering Construction Com-
pany, which was accepted.

The Bids
are as follows:

Half Mile of Highway Between Church
of Angels and Annandale Golf
Club to be completed.

An important road-grading contract
was awarded by the Board of Supervi-
sors at yesterday's session. This was
for the completion of the Mountain
avenue—Avenue 44—highway be-
tween the Church of the Angels and the
San Rafael toll road.

ALWAYS SURE OF OUR WATER.

Break in Main Proves Value
of City's System.

Unique Double Distribution
Plan Prevents Stops.

Mulholland Makes Success of
Electrolysis Cure.

Hardly more than a score of water users in Los Angeles were made aware by loss of pressure at their faucets last Saturday that a break had occurred in one of the last remaining sections of the thirty-inch steel pipe crossing Sunset boulevard at Fanning street, partly destroyed by the action of electric currents, gave way and poured a flood of water into the street, causing a deep washout and threatening destruction to the Los Angeles-Pacific Railway along the boulevard. Prompt closing of the main lines of the system and restored supply under normal pressure to all but the few taps in the immediate neighborhood of the break.

The cause of the disintegration of steel water pipes and the reasons for this city's immunity from serious interruption of water supply by accidents to mains and now known to the public generally. Indeed, the fortunate citizens of Los Angeles does not even know that there has been no interruption of supply since the water works were built in 1888, but that is not so, and Los Angeles is probably the only city of considerable size in the country of which that can be said.

"JUICE" IN THE MAINS.

Electric currents operating trolley railways pass from the wires through the cars into the rails and find their way back to the power stations along lines of least resistance. When the lines are discharged their full power, the overcharge leaves them and seeks other conductors in the ground, the most inviting being lines of metallic pipe, particularly steel pipe. A pipe with electric current causes no injury. But the tendency of the current is to complete its circuit by returning to the starting point. When it does, the power or transforming station it leaves the pipe and jumps through the earth to its destination. That is where the damage is done. Electricity, having been carried by particles of the metal with it, and innumerable small holes soon appear in the steel. As the teredo eats piles in the water, so does electricity eat holes in the buried pipe.

MAN'S EATEN OUT.

The big main crossing Sunset boulevard has been the return conductor for electricity passing into the ground from all the east and west tracks intersecting its course. It has gathered currents from the southern city limits to the Hollywood station. Examination reveals the electrolytic destruction of about 500 feet of steel main.

There are two methods of preventing electrolytic action. One is to cause it to make a complete metallic circuit by "bonding" the pipes with copper conductors to the power stations. The Water Board has notified the trolley companies to provide this form of protection wherever it may be required.

The other method is to prevent the electric current from using water pipes as return routes, and this plan, apparently, having got off the current yet devised is that introduced by Engineer Mulholland and first applied in Los Angeles.

CEMENT JOINTS CURE EVIL.

In 1908 Mulholland made experiments with small mafnas, and demonstrated, contrary to the predictions of many experts, that cemented joints effectively withstand the action of the return current. Two lines of pipe in the same trench, one laid with lead joints and the other cemented, were tested by electricians. The all-metal line was strongly charged, but the other carried no little current, and the testing instruments were not affected.

Mulholland thereupon said the thirty-six-inch main in Central avenue with cemented joints, and the line was safe against electrolysis. It is not always practicable to use cement, because in many cases water must be let into the pipe at once, and cement joints will not hold unless time is allowed for setting, and hardening. Where cement cannot be used copper conduits must be bonded to the steel and so laid as to complete the circuit.

DOUBLE DISTRIBUTING SYSTEM.

No less interesting than the problem of protection from electrolysis is the reason for the two main lines. An sudden interruption of water supply. No other city offers precisely the same topographical opportunity for safeguarding the distributing system, an opportunity that has been recognized and utilized to the full possible extent by Engineer Mulholland. It may be said also that no other city has had Mulholland as water superintendent and engineer, and that means more than that the average citizen of Los Angeles comprehends.

The unique feature of this city's distributing system is that it is a complete double system. The high gravity and the low-gravity pipe lines are each two miles long and independent sources of supply. Each system is double-ended, or, in other words, is a horseshoe with an inlet at each end. The water in the horseshoe is always pressure from the end, and a break anywhere may be isolated by the closing of gates on each side, leaving the rest of the line under pressure, each section from its end or the horseshoe. That is the main reason of the city can be deprived of fire protection by a break in a main.

The city of Brooklyn was out of water for three days because of an accident to a big main; extensive areas of New York have been deprived of water for all purposes at times, and almost every large city has had serious trouble of that nature at some time in its history.

It is virtually impossible, thanks to the engineering skill of William Mulholland, for the Los Angeles water system to be crippled by anything short of an earthquake severe enough to destroy all its mains.

"Ramona Acres."

Hezekiah Judson, the author of "Ramona," gave to the world a great novel, but his excellency is well sustained in the beautiful village of Ramona, in the San Joaquin Acres. These "Acres" are only twenty minutes away from the heart of Los Angeles, on the surface line of the San Joaquin. Every lot supplied with purest artesian water. The city. Cement sidewalks and curbs. Map and tickets free. "No trouble to show roads." Located on the San Joaquin Road, No. 261-262 Company, No. 48 North Spring street, 261-262 San Joaquin, Los Angeles, Cal.

Piles Cured in 6 to 14 Days.

Our guarantee is to cure any case of Hæmorrhoids, Bleeding or Protruding Piles in 6 to 14 days. Money refunded. No.

CRIPPLED FOR LIFE.

Child Strikes Blasting Cap With Hammer and is Terribly Injured in Explosion Which Follows.

The curiosity of little Milli Slaver, a 7-year-old Russian boy, yesterday caused the youngster to smash a heavy fulminate cap, such as is used in blasting, with a hammer. The explosion that ensued the little boy's head and was blown to pieces, the sight of his left eye was destroyed and his little body was fairly covered with lacerations where the jagged pieces of brass flew into the flesh.

Only the quick work of Surgeons Quigley and Bremmer at the Redding Hospital saved the youngster's life, for he was bleeding profusely from his wounds when he reached the hospital.

The sight there was pathetic. The face of Milli Slaver, a big strong Russian, sat in a chair, while no one there could express to him the fact that the baby would recover.

An amputation of the thumb and three fingers on the left hand was found necessary.

When the baby's wounds had been dressed, Surgeon Tanner, the eye specialist of the hospital, made an examination of the injured eye. He found small pieces of brass had been blown through the pupil, and it was decided that the eye would have to be taken out to prevent sympathetic colic.

The father did not understand the

surgeons and the baby had been removed to the County Hospital when

if the father consented, the delicate opera-

tion will be performed.

WHERE?

WIFE MISSING; HAD BIG DRAFT.

FAILS TO MEET HER HUSBAND HERE AS PLANNED.

Mrs. A. W. Black Leaves Colorado on Passenger Train, Meets on Freight—When He Arrives He Cannot Find Any Trace, and Asks the Police to Assist in the Search.

After searching two days for his wife, A. W. Black applied to the police last night to assist him in locating the missing woman. Despite the assurance of the officers that they believed she was still in the state, no trace could be found.

Black entered the office to address care of the Los Angeles general delivery. Three days ago Black reached here. He went to the postoffice and called for mail for himself, having arranged with his wife to address a letter there for him, telling him where she had taken rooms.

Black found no mail for himself, and called for his wife's letters. He asked the postmaster to hold them to her. At once he set out to find Mrs. Black. He says he has searched all the downtown lodges and apartment houses, but has been able to find no trace of her.

Black says his wife is of dark complexion, about 5 feet 5 inches tall, dark hair and dark-blue eyes, and wore a dark-blue suit and a black cloak. She weighs about 100 pounds. He says he had a draft for \$1000 with her.

MORE HOPEFUL.

LOOKS BETTER FOR THE BEANS.

VENTURA COUNTY RANCHERS ARE ENCOURAGED.

If Present Dry Weather Continues a Large Proportion of Unthreshed Ones Will Probably Be Saved. Some Authorities Place Loss at Not Over Ten Per Cent.

VENTURA, Oct. 28.—A complete change of weather this county in the past twenty-four hours has just as completed changed the crop outlook. What looked like a loss of one-half of the little bean crop may turn out to be very much smaller percentage.

Our rancher, Charles McPherson, who resides in the Mound district, and who feared he would lose all his beans, said that with thirty-six hours of present weather conditions he will save nearly all, even those lying underneath the shock and next the ground. This is the word coming from every rancher who has beans out. Some authorities, Frank Barnard among others, place the loss, if any, at no more than 10 per cent. It is definitely figured that the loss in any circumstances cannot be more than will be offset by the increased price of the beans saved.

The price of beans is now at \$10.00 per hundred, and even better. The loss in beans will not be so great as was feared, as the present period of warm and clearing weather will make it possible to save nearly all the fallen nuts. It will give opportunity and time to gather the nuts.

VENTURA NOTES.

Don E. Smith, of the University of California, who will have charge of the university extension lectures, will give his first lecture in this city on Monday evening, November 5, at the Methodist church. The subject will be on some phase of Spanish history, of which subject the course will treat.

This October has been a record-breaker for rainfall in the thirty-two years in which the table of rainfall is complete. This season this month's rainfall has been 4.62 inches. The greatest rainfall of any preceding October was 4.6 inches, in 1889-90.

The greatest October rainfall ever recorded in this city was in 1902-03, when 2.91 inches fell.

In each of the years in which there were heavy October rains good rainy seasons have followed. The recent rain was a very warm one, and already the hills over the county are covered with green.

M. I. Stahl and wife of this city are attending the Association of Congregational Churches in Riverside this week.

PASTOR OF METHODIST CHURCH AT UPLAND SAYS CHURCH MUST FURNISH AMUNITION.

UPLAND, Oct. 28.—One of the most beautiful and impressive "rally day" services ever given in Upland was witnessed at the Methodist Church yesterday at the usual hour for the morning services. The church was beautiful and tastefully decorated. There were 1,000 persons in the church, mostly members of the Sunday-school, musical members of the church, and others, and as a climax to the day, A. C. Welch, pastor of the church, spoke feelingly of the close relationship of the church to the Sunday-school. The doctor takes the ground that the church and her members must use some method of furnishing clean, wholesome amusements and pleasures for the young people, or the devil will set them to the breach, and lead many of them away.

There were no services at the Methodist Church in the evening, all the congregations of the city joining in a union service at the Mennonite Church.

HUNTINGTON BEACH.

HUNTINGTON BEACH, Oct. 28.—(Examiner Dispatch.) The cruiser Maryland joined her sister ships this evening. This is the third day of inspection on board the Pennsylvania. On Saturday Admiral Dayson inspected the ship's guns and armament. Yesterday he was given an investigation of the crew and their equipment and today the admiral looked into the men's quarters, cooking arrangements and the sanitary condition of the vessel. A number of drills were given on the Pennsylvania for the admiral's benefit.

Kumburgers Kumburgers Kumburgers Kumburgers Kumburgers

OFFERS CITY
ITS OWN WATER.

ALLURING PLAN PROPOSED, BUT
WILL IT WORK?

"Tujunga Company" Would Sell
Two Thousand Inches of Water to
Which the City Already Has Title.
Scheme That Has Been Repeatedly
Killed Refuses to Stay Killed.

It never rains but it pours. The "Tujunga Company" has proposed to the Council to sell to the city 2000 inches of pure mountain water at the mouth of the Big Tujunga Creek, in the San Fernando Valley, and it has the United States government the exclusive right to construct dams and reservoirs in the Big Tujunga Creek at ten or several different sites. The city has been offered the use of the water at 5 cents per thousand gallons, as much water to be consumed as at the rate of 24 cents per thousand gallons.

Homer A. Hansen, president of the company, told the Council yesterday that it is proposed to supply the city with the 2000 inches of water from about one year from the present time until the Los Angeles aqueduct is completed. He estimates that the city would use the water for about four years.

In his petition to the Council, Hansen recites that his company owns 4000 acres of land at the mouth of the Big Tujunga Creek, in the San Fernando Valley, and it has the United States government the exclusive right to construct dams and reservoirs in the Big Tujunga Creek at ten or several different sites. The city has been offered the use of the water at 5 cents per thousand gallons.

The petition filed by the company stipulates that the city shall be expected to pay the cost of the water after the Los Angeles aqueduct is finished. As soon as the city receives the Owens River supply, the company expects to use the Tujunga water to irrigate 4000 acres of land secured from the government; the surplus water will be sold to other owners of land in the San Fernando Valley.

The Council declined to consider the

petition yesterday, but sent it to the Water Board for a recommendation.

This is the same old scheme that has bobbed up periodically for the last dozen or fifteen years and been turned down so often that the Water Board is weary of dealing with the proponents of diversion of the Big Tujunga. It is the kind of Mr. Hansen to offer to the city at a bargain water which the city already owns and is using, water which has never been used in the city of Los Angeles or its frontier. The United States government may grant privileges to construct dams, but it does not assume to adjudicate water rights, what has been attended to by the city.

It has been settled beyond dispute by decisions of state courts and of the United States Supreme Court that the city of Los Angeles owns the water of the Los Angeles River. In the Pomeroy & Hooker case, the Crystal Springs case, and later in the case of the city against the water users of San Fernando Valley, it has been decided that the water of Big Tujunga is, as a matter of physical fact and of law, a part of the Los Angeles River. In the last-named case, the court ruled that the diversion of the Big Tujunga in 1896, "The Los Angeles River flows in a westerly course from up the Big Tujunga and thence turns southerly and thence easterly and passes through the city of Los Angeles. The city owns the paramount right to use the water."

From all of which it may be inferred that the Water Board will pay no attention to Mr. Hansen's offer that the "Tujunga company" will not be permitted to store and sell the water of Los Angeles River, and that its dream of irrigating 4000 acres and sending the surplus water to San Fernando Valley ranchers will be shattered by the innumerable caravans of Big Tujunga hallucinations.

Police Descend Upon Four Stock Carriers and Confiscate Evidence of Illegal Business.

Prosecuting Attorney E. J. Fleming and Chief of Police Kern yesterday raided the bucket shop in the downtown section and in the places and towns where the police had been informed that the "Tujunga company" was carrying on its illegal business.

At each place, the owners of the building wherein the bucket shop was located was warned that in future trouble would result if offices were rented for the purpose of carrying on illegal business.

Policemen in uniforms were stationed at the doorway of each bucket shop and no one was allowed to enter. The places raided were: J. W. Scott, No. 306 German building; Morris & Dennison, No. 214 Citizens' Bank building; Hell & Rider, No. 608 H. W. Hell.
